

Campaign calendar for 2016

This year, we will be asking you to support three main campaigns that should have a big impact on overcoming poverty: on TB (in particular, on replenishment of the Global Fund); on Nutrition For Growth; and on Climate risk insurance. To help you think through your contribution, we've put together this outline calendar for 2016, which includes some known important moments in the year. This should provide external 'hooks' for your activities.

Please note that all the campaign moments below are subject to change, as we find out more about the individual influencing opportunities as the year unfolds. This means that individual monthly actions may well not exactly follow the calendar below.

January	February	March
Planning your campaigning year Recruiting new grassroots members	Launch of TB campaign New RESULTS UK website launch	Launch of Climate Risk Insurance campaign International Women's Day (8 th) World TB Day (24 th)
