

**Please write to your local MP to show your support for the fight against malnutrition to ensure all children can lead #HealthyLives**

**Please use your own words! Here are some suggestions for your letter:**

Dear [MP name]

I am a constituent of yours in **xxxx** and I am concerned about malnutrition, a global problem that takes the lives of nearly three million children every year.

Malnutrition blights the lives of millions more children, preventing them from developing properly, growing and learning. It affects their life chances and represents a huge loss of potential and a loss to future generations.

But this situation doesn't need to persist. Three years ago, the UK Government co-hosted a 'Hunger Summit' in London to pledge new resources to tackle malnutrition. David Cameron led the way, announcing over £1 billion to improve nutrition around the world.

However, since then, progress has been slow and uneven, and we are way off track to meet global nutrition targets. This summer, the UK will pass on the baton to Brazil as all eyes look to Rio for the 2016 Olympic Games. As teams arrive in Rio, there will be a **crucial nutrition summit** to review progress towards tackling malnutrition globally and to commit new resources.

David Cameron has shown the world that the UK is committed to ensuring every child gets a healthy start in life, no matter where in the world they are born.

**Please ask the Prime Minister to follow up on his commitment and work with other world leaders to make the summit a success.**

Thank you for your support in this crucial matter.

Yours sincerely
